

## The Organ Care System (OCS) Lung Thoracic Organ Perfusion (TOP) Post Approval Study (PAS) Registry - OCS Lung TOP PAS Registry

**Status:** Recruiting

### Eligibility Criteria

**Sex:** All

**Age:** 18 Years and over

This study is NOT accepting healthy volunteers

This is an all-comers registry that will enroll all:

- Consented patients who receive OCS<sup>®</sup> preserved double lung transplants from either standard criteria donors or donors initially deemed unacceptable; and
- Consented patients who receive a single lung transplant from OCS<sup>®</sup> preserved lung pairs from either standard criteria donors or donors initially deemed unacceptable; and
- All donor lungs that were perfused on OCS Lung System. Enrolled patients will fall into one of the following three possible analysis categories:
  - TOP SCDL PAS Primary Analysis Population: will be comprised of the first 289 eligible/PAS consented recipients transplanted with SCDL primary analysis population eligible donor lungs preserved on the OCS<sup>®</sup> Lung System.
  - TOP DLIDU Primary Analysis Population: Will be comprised of the first 266 eligible/PAS consented recipients transplanted with DLIDU primary analysis population eligible donor lungs preserved on the OCS<sup>®</sup> Lung System.
  - All Other Enrolled Patients: will be comprised of all OCS Lung transplanted patients in the TOP Registry that do not meet any of the above analysis populations.

### Conditions & Interventions

**Interventions:**

Device: OCS Lung System

**Conditions:**

Lung Transplantation

**Keywords:**

Clinics and Surgery Center (CSC)

### More Information

**Description:** To collect additional real-world safety and effectiveness data for the OCS<sup>®</sup> Lung System and to expand the long-term clinical evidence supporting the use of OCS<sup>®</sup> Lung System in lung transplantation.

**Contact(s):** Tracy Bui - tbui@umn.edu

**Principal Investigator:** Stephen Huddleston

**Phase:** NA

**IRB Number:** STUDY00003837

**System ID:** NCT03639025
