

HEALEY ALS Platform Trial

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- 18 years or older - diagnosed with sporadic or familial ALS - weakness started no more than 36 months ago -able to to swallow pills and liquids

Exclusion Criteria:

- unstable medical or mental health condition - limitations on prior or current use of certain medications (study staff will review) - women who are pregnant or breast feeding

Conditions & Interventions

Conditions:

Rare Diseases, Brain & Nervous System

Keywords:

Clinics and Surgery Center (CSC), ALS, amyotrophic lateral sclerosis

More Information

Description: The HEALEY ALS Platform Trial is a research trial that tests the safety and effectiveness of multiple treatments in ALS. A regimen is a specific course of treatment, each with a different study drug. We are doing this research to find out if different treatments have an effect on Amyotrophic Lateral Sclerosis (ALS). We also want to find out if these treatments are safe to take without causing too many side effects.

Study Contact: Valerie Ferment - ferm0016@umn.edu

Principal Investigator: David Walk

Phase: PHASE2

IRB Number: SITE00000881
