

ALX-HPP-501: An Observational, Longitudinal Prospective, Long-term Registry of Patients with Hypophosphatasia

Status: Recruiting

Eligibility Criteria

This study is NOT accepting healthy volunteers

Conditions & Interventions

Conditions:

Hypophosphatasia (HPP)

More Information

Description: This multinational, multicenter, observational, prospective, long-term registry is designed to collect data on epidemiology, HPP history, clinical course, symptoms (including multi-systemic aspects of disease), and burden of disease from patients of all ages who have a diagnosis of HPP. In addition, the Registry will collect data on asfotase alfa dosing, effectiveness of treatment, SAEs, immunogenicity, pregnancy and neonatal outcome data (for patients treated with asfotasealfa only), and targeted EOI.

Contact(s): Kyriakie Sarafoglou - saraf010@umn.edu

Principal Investigator: Kyriakie Sarafoglou

Phase: NA

IRB Number: STUDY00004936

System ID: NCT02306720
