

Prospective Evaluation of Chronic Pancreatitis for Epidemiologic and Translational Studies

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- diagnosis of chronic pancreatitis.

Exclusion Criteria:

- N/A

Conditions & Interventions

Conditions:

Digestive & Liver Health

Keywords:

Chronic Pancreatitis, Pancreatitis

More Information

Description: This study will provide the most accurate and reliable estimates to date on disease progression and clinical events in evolving chronic pancreatitis. We also hope to develop from the results of this study some lab tests that will help us with early diagnosis of chronic pancreatitis and also to discover any genetic factors that may affect your chances of developing chronic pancreatitis.
