

## Muscular Dystrophy Association Neuromuscular Observational Research (MOVR) Data Hub Protocol (#MDACS1)

**Status:** Recruiting

### Eligibility Criteria

**Sex:** Male or Female

**Age Group:** Not specified

This study is NOT accepting healthy volunteers

**Inclusion Criteria:**

Any person who has a diagnosis of ALS, DMD, BMD, SMA, or any other neuromuscular diseases

---

**Exclusion Criteria:**

There are no exclusion criteria

### Conditions & Interventions

**Conditions:**

Brain & Nervous System

**Keywords:**

Muscular Dystrophy, Neuromuscular diseases, Muscular Dystrophy Association (MDA)

### More Information

**Description:** The Muscular Dystrophy Association (MDA) wants to collect information about individuals with neuromuscular disease to better understand the disease progression and ultimately improve the medical care, quality of life, and survival of those with neuromuscular disease. To collect this information, MDA has created a data registry called the Neuromuscular Observational Research Data Hub (referred to as the "MOVR Data Hub").
