Transgender, Non-Binary, Gender Diverse, Children

More Information

Description: The goals of the current proposal are to systematically approach the development and iterative testing of a novel, culturally-responsive, evidence-informed psychotherapeutic activities (MyGender Dolls) for transgender and gender diverse (TGD) children (ages 5-10) and their caregivers. There are two primary objectives: 1) to develop and refine the MyGender Dolls psychotherapeutic activities based on feedback from community stakeholders, and 2) to assess the initial feasibility, acceptability, and usability of the MyGender Dolls with TGD children and their caregivers.
