

## The Women Kidney Program

**Status:** Recruiting

### Eligibility Criteria

**Sex:** Female

**Age Group:** 18 years and over

This study is NOT accepting healthy volunteers

**Inclusion Criteria:**

- female as biological sex - diagnosis of a kidney disease or after kidney transplant - at least 18 years old

---

**Exclusion Criteria:**

- unable to speak English

### Conditions & Interventions

**Conditions:**

Kidney, Prostate & Urinary, Women's Health

**Keywords:**

Clinics and Surgery Center (CSC), Kidney disease, kidney transplant

### More Information

**Description:** The purpose of this study is to capture clinical information on how kidney disease affects the health of women, focusing on menstrual and reproductive health, the transition to menopause (the time when your menstrual periods stop permanently), and menopause itself. We also wish to learn more about how women's health affects their kidney disease, bone and heart health.
