

D2D Care Aware: Understanding Opioids in Minnesota

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is also accepting healthy volunteers

Inclusion Criteria:

Minnesota resident

Conditions & Interventions

Conditions:

Community Health, Mental Health & Addiction

Keywords:

addiction, opioid use disorder, substance use disorder

More Information

Description: According to the Minnesota Department of Human Services, about 290,000 adults in Minnesota need treatment for addiction. National data suggests that only 10% of those who need treatment receive it. The goal of the study is to determine public opinion and knowledge about opioid use disorder and its treatment.
