

Global Registry For Novel Therapies In Rare Bone & Endocrine Conditions

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: Up to 18 years old

This study is also accepting healthy volunteers

Inclusion Criteria:

- for this study is not for any specific diagnosis - any child receiving human growth hormone treatment

Exclusion Criteria:

Unable to meet the Inclusion Criteria above.

Conditions & Interventions

Conditions:

Rare Diseases, Children's Health

Keywords:

growth hormone

More Information

Description: This research study is for creating a registry of all ages with conditions in endocrine and both health. Registries are used very often these days by doctors and scientists to collect information and use to perform research into rare conditions. This registry will be part of a global registry, called "GloBE-Reg" with the University of Glasgow (Scotland) and with the University of Minnesota.
