

Ostomy Simulation for Patient Education Prior to Urologic Bowel Diversion Surgeries

Status: Recruiting

Eligibility Criteria

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- at least 18 years old - having bowel diversion urologic surgery

Exclusion Criteria:

- prior or current ostomy - women who are pregnant - cognitively unable to care for own stoma

Conditions & Interventions

Conditions:

Kidney, Prostate & Urinary

Keywords:

bowel diversion urologic surgery, ileostomy, stoma

More Information

Description: This research is being to see if a new 3D simulation model is helpful in teaching patients about care of their stomas after surgery. We expect that people will be in this research study for 3-6 months depending on the timing of surgery and postoperative visits. The number of preoperative and postoperative visits, physician exams, scans, X-rays, and laboratory tests for preparation for surgery or after the surgery does not change because of this study.
