

MN CF Center Consent (PortCF) Cystic Fibrosis (CF) Center Program Accreditation and Funding

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: Not specified

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- possible diagnosis of Cystic Fibrosis (CF) or CF-related complications - receive care at the MN CF Center

Conditions & Interventions

Keywords:

Clinics and Surgery Center (CSC), cystic fibrosis, CF, MNCF

More Information

Description: This retrospective, longitudinal project is to collect certain demographic and clinical health status information for entry into the CF Foundation Patient Registry (also known as PortCF). The registry has played an important role in CF research and will continue to do so. In addition, much of the same information is entered into the University of Minnesota Cystic Fibrosis Center Research Database. This patient database has been maintained since 1975.
