

Cervical and Endometrial Cancer Screening in Patients Seeking Gender-Affirming Hysterectomy

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- at least 18 years old - able to understand, speak, read, and write in English - have undergone hysterectomy, or plan to have a hysterectomy - people who are transgender and gender diverse

Exclusion Criteria:

- on the study's community advisory board

Conditions & Interventions

Interventions:

Other: No intervention

Conditions:

Cancer, Community Health

Keywords:

Cancer screening, hysterectomy, uterus

More Information

Description: This study aims to quantify the rates of cervical cancer screening and endometrial sampling prior to gender-affirming hysterectomy, assess the need for these tests in TGD individuals, and explore patient-centered options for these tests.
