

MT2025-06: Postmarketing, Prospective, Observational, Study to Assess and Characterize the Risk of Secondary Malignancies, and Long-term Safety Following Treatment with atidarsagene autotemcel (Lenmeldy)

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: Not specified

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- live in the United States - has been or will be treated for MLD with Lenmeldy

Conditions & Interventions

Conditions:

Rare Diseases

Keywords:

Metachromatic Leukodystrophy, MLD

More Information

Description: To assess and characterize the risk of malignancies, and long-term safety following treatment with atidarsagene autotemcel (Lenmeldy).
