

## CAH/DSD Database and Biorepository

**Status:** Recruiting

### Eligibility Criteria

**Sex:** Male or Female

**Age Group:** Not specified

This study is NOT accepting healthy volunteers

**Inclusion Criteria:**

- Diagnosis of congenital adrenal hyperplasia (CAH) and/or disorder of sex development (DSD) and parents of patients with CAH and/or DSD will also be included - patients 2-21 years of age, no age limit for parents

### Conditions & Interventions

**Conditions:**

Children's Health, Diabetes & Endocrine

**Keywords:**

CAH, congenital adrenal hyperplasia, disorder of sex development, DSD

### More Information

**Description:** We want to collect blood and saliva samples from patients with CAH or DSD and their parents. These samples will be collected and saved for future tests that may help in better understanding CAH and DSD. Also, information from routine clinical care will be collected for quality assessment and to improve long-term clinical outcomes.
