

Department of Neurology Movement Disorders Research Registry

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is also accepting healthy volunteers

Inclusion Criteria:

- interested in participating in movement disorders research at UMN

Conditions & Interventions

Conditions:

Brain & Nervous System

Keywords:

Dystonia, movement disorders, Parkinson's, Tremor

More Information

Description: The purpose of the University of Minnesota (UMN) movement disorders research registry is to connect individuals interested in participating in Movement Disorders research with researchers at the University of Minnesota. The registry will allow individuals from the community to share their contact information, basic information about their health diagnoses, and research studies they participate in. This information will be stored for future research contact and be used to determine which movement disorders studies (if any) that an individual may qualify for.

Study Contact: Niecy Beltz - beltz070@umn.edu

Principal Investigator: Paul Tuite

IRB Number: STUDY00027303
