

Tic Clips

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: Not specified

This study is NOT accepting healthy volunteers

Inclusion Criteria:

- Aged 4 years or older - Self-report having tics - Adult participant or parent is able to read in English - Access to an internet connected device with video recording capability

Conditions & Interventions

Conditions:

Brain & Nervous System, Children's Health

Keywords:

CBIT, Motor tics, Tic Disorder, Tourette's syndrome, Vocal tics

More Information

Description: This study is about learning more about the full range of what tics can look like. Participating includes filling out surveys and submitting two brief videos of yourself. We know tics can be really different across people. By getting a lot of videos of people doing tics, we hope to better understand the variety of tics that exist.
