

Emotion Regulation Knowledge Study

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: Up to 18 years old

This study is also accepting healthy volunteers

Inclusion Criteria:

- children ages 4–12 years - parent or legal guardian able to provide informed consent - child and parent willing to participate in a single research visit involving an iPad-based storybook activity and a brief parent survey

Conditions & Interventions

Conditions:

Children's Health, Mental Health & Addiction

Keywords:

Child development, Emotion regulation, Social-emotional development, Families, iPad-based activities

More Information

Description: The purpose of this study is to develop and evaluate a storybook-based tool that measures how children ages 4 and older understand and manage their emotions. Researchers will examine how children choose different emotion regulation strategies in a variety of situations, such as interactions with family, friends, or when alone, and how these skills relate to children's social and emotional development.
