

## Tic Impacts Survey

**Status:** Recruiting

### Eligibility Criteria

**Sex:** Male or Female

**Age Group:** 18 years and over

This study is NOT accepting healthy volunteers

**Inclusion Criteria:**

- aged 18 years or older - self-report having tics - access to an internet-connected device

### Conditions & Interventions

**Conditions:**

Brain & Nervous System

**Keywords:**

chronic tic disorders (CTD), Tourette syndrome (TS), vocal tics

### More Information

**Description:** This study is about learning how tics affect daily life and everyday activities. If you participate, you'll complete online surveys about how tics impact your daily routines, work or school, hobbies, and other activities. Researchers also want to learn how other health conditions may affect daily functioning and what strategies or accommodations people use to manage the impact of tics.

**Study Contact:** William Simonson - simo1428@umn.edu

**Principal Investigator:** Christine Conelea

**IRB Number:** STUDY00026795
