

Increasing Access to OCD and Tic Disorder Care in Rural Communities

Status: Recruiting

Eligibility Criteria

Sex: Male or Female

Age Group: 18 years and over

This study is also accepting healthy volunteers

Inclusion Criteria:

- 18 years of age or older - have access to web-based technology (such as a computer, tablet, or smartphone with internet access) - identify as a provider, such as a psychologist, social worker, physician, mental health therapist, school-based counselor, or another type of care provider

Conditions & Interventions

Conditions:

Brain & Nervous System

Keywords:

OCD, Vocal tic

More Information

Description: This study is evaluating a training program designed to support healthcare providers in improving care for individuals with tic disorders and obsessive-compulsive disorder (OCD). Researchers will assess the feasibility of the training program and whether it helps improve providers' knowledge, confidence, and ability to support patients with these conditions.
